PROFESSIONAL SUMMARY

AI Engineer Intern at BitApps and Computer Science undergraduate building practical AI applications, model-evaluation tools, RAG workflows and backend APIs. Experienced with Python, FastAPI, PyTorch, Hugging Face, automated testing and Docker, with a focus on reliable outputs, edge cases and maintainable implementation.

EXPERIENCE

AI Engineer Intern — BitApps *AI-assisted development, integrations & testing* April 2026 – Present

- Contribute to AI-assisted software development and backend integration workflows using Python, FastAPI, REST APIs, webhooks and developer-focused automation systems.
- Configure Docker-based local services and explore n8n, Temporal and Restate workflows for integration, reliability testing and debugging.
- Develop and execute Playwright and pytest feature tests covering frontend behaviour, API connectivity, authentication flows and edge cases.
- Diagnose service, response and environment-configuration failures; document test outcomes, technical findings and troubleshooting steps.

SELECTED AI & MACHINE LEARNING PROJECTS

Scalable LLM Fine-Tuning Pipeline Python · PyTorch · LoRA/QLoRA · MLflow · Docker

- Designed an end-to-end parameter-efficient LLM fine-tuning pipeline with experiment tracking, hyperparameter logging, model versioning and a reproducible containerised environment.

CodeEval — AI-Generated Code Evaluation Suite Python · AST · pytest

- Developed a benchmarking framework that evaluates generated code for correctness, runtime efficiency, readability and edge-case coverage using automated tests and AST-based analysis.

CRITICALMASS — Adversarial AI Game Bot Python · NumPy · Minimax

- Engineered an official IIT Patna Apeiron Fest 2026 submission using Alpha-Beta pruning, iterative deepening and phase-aware evaluation; recorded 30 wins in 30 benchmark games and passed the tournament test suite.

ClinicalMind — AI Diagnostic Support Co-Pilot (In Development) FastAPI · React · RAG · AI Agents

- Implementing an agent-based clinical support workflow for text, voice and image inputs, with retrieval-grounded guidance and an offline-first interface; designed as a support tool requiring qualified medical review.

TECHNICAL SKILLS

AI / ML	PyTorch, scikit-learn, XGBoost, Hugging Face Transformers, LangChain, RAG, LoRA, QLoRA, Prompt Engineering, Model Evaluation, LlamaIndex, Pinecone
Language & Backend	Python, FastAPI, REST APIs, API Integrations, Webhooks, Authentication Flows, Async Workflows, Service Debugging
Quality & Tools	Playwright, pytest, Unit Testing, Integration Testing, API Testing, Docker, Git, GitHub, MLflow, Postman, Pandas, NumPy

EDUCATION & ACHIEVEMENTS

B.Tech, Computer Science and Engineering — SRM Institute of Science and Technology, Sep 2023 – May 2027
Tiruchirappalli · CGPA: 8.17

Critical Mass, IIT Patna Apeiron Fest 2026 — Official submission, 30/30 benchmark record · Deep Learning with PyTorch: Image Segmentation — Coursera, Apr 2024 · E-Summit 2024 Data Science Workshop — IIT Hyderabad, Feb 2024
